

Family Wealth Services

Multi-Generational Investment Management & Fiduciary Capabilities

Chevy Chase Trust Family Wealth Services offers multi-generational wealth advice designed to achieve uncommon results. Our services extend beyond investment management into every facet of financial life for individuals and families with significant wealth and complex situations.

What We Do

Utilizing the depth and experience of our firm, we help our clients navigate through a broad array of challenging financial issues. Our work begins with understanding the unique circumstances of every client and considering all of the possibilities. With a careful and thoughtful approach, we collaborate with your existing advisors and other outside experts to ensure a well coordinated and personalized plan. From financial and estate planning to investment management, we are dedicated to performing as your family office and delivering comprehensive, sophisticated wealth services today and for generations to come.

Our Services

Our staff of more than 90 professionals averages 20 years of experience managing the financial affairs of individuals and families. Each client has a dedicated core team who work together to provide world class service and attention to detail. This includes managing disparate assets, focusing on planning as a guide to better decisions, facilitating communication among clients and their heirs, promoting awareness and understanding across generations, consulting with individual advisors and coordinating with trusted partners with external experts.
